

NiBoride Hard Chrome Replacement

Uniform Coating

- ◆ Excellent bond to substrate
- ◆ Uniform thickness
- ◆ Uniform application
- ◆ Non line of sight
- ◆ Complex geometry
- ◆ Columnar structure

Comparison with Hard Chrome

NiBoride

Hard Chrome

Threads of a bolt coated with Niboride (A) and Hard Chrome (B)

Harness, Wear Resistance & Lubricated COF

Corrosion Resistance

- ◆ Maximum service temperature: 1922°F
- ◆ Corrosion resistance enhanced with under lay of Nickel Phosphorus
- ◆ Columnar structure

What can be coated with NiBoride

- ◆ Anything coated with Hard Chrome
- ◆ End Caps
- ◆ Nozzles
- ◆ Tip Assemblies
- ◆ Die Plates
- ◆ ETC.....
